Introduction

Created with the Personal Edition of HelpNDoc: [Qt Help documentation made easy](#)

Welcome

Welcome to the Help Document of Cafeteria Ordering System. Here you will find all the help you would need for using our app.

Created with the Personal Edition of HelpNDoc: [Free EBook and documentation generator](#)

What's new

This page contains latest news about the latest releases of Cafeteria Inventory System.

Release 3.0

1. Mobile support has been added with the latest release.
2. Can upload image of food
3. Can filter the views of the menu

Created with the Personal Edition of HelpNDoc: [Easily create Help documents](#)

Getting Started

Created with the Personal Edition of HelpNDoc: [Produce online help for Qt applications](#)

System requirements

This page contains the system requirements of Cafeteria Inventory System.

1. Web app
 - Any Operating System with any Web browser that supports JQuery and Javascript.
 - Google Chrome is recommended for a better experience.
2. Mobile
 - Android Version 9.0 or later.

- IOS support currently not supported.

Created with the Personal Edition of HelpNDoc: [Create iPhone web-based documentation](#)

COS

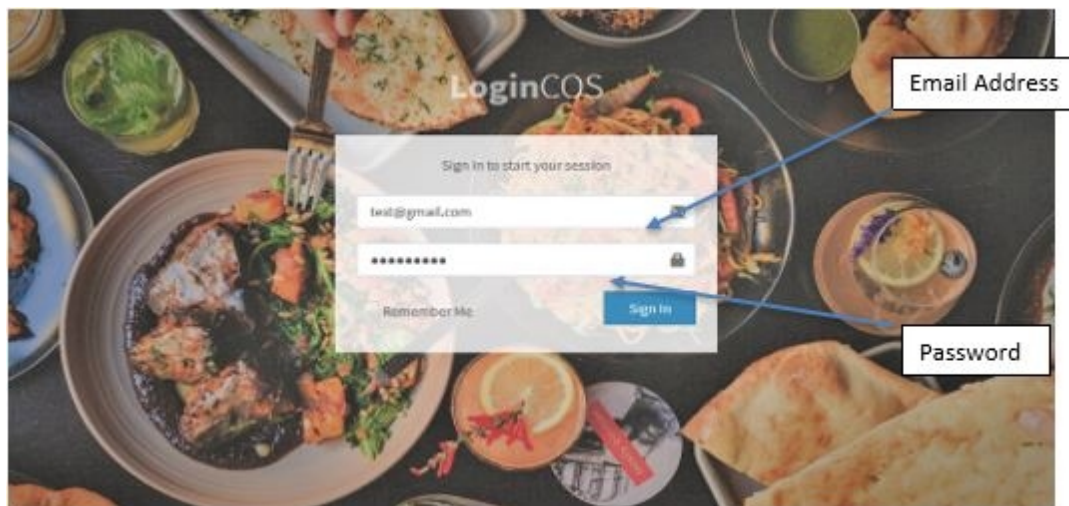

Created with the Personal Edition of HelpNDoc: [Free Kindle producer](#)

Basics

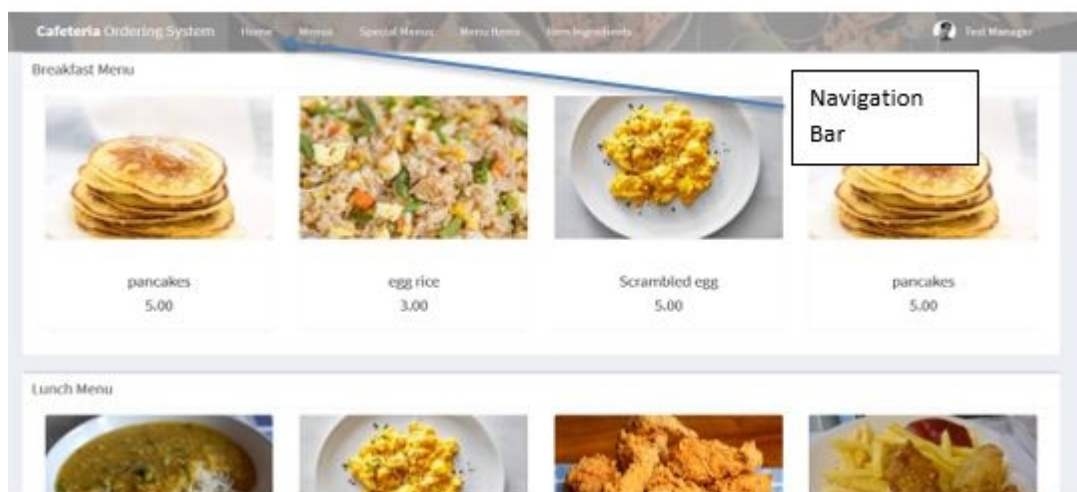

Created with the Personal Edition of HelpNDoc: [iPhone web sites made easy](#)

Logging In

Once visiting the Cafeteria Ordering System, Login page will be displayed. Type in your email address and password that will take you into the system.

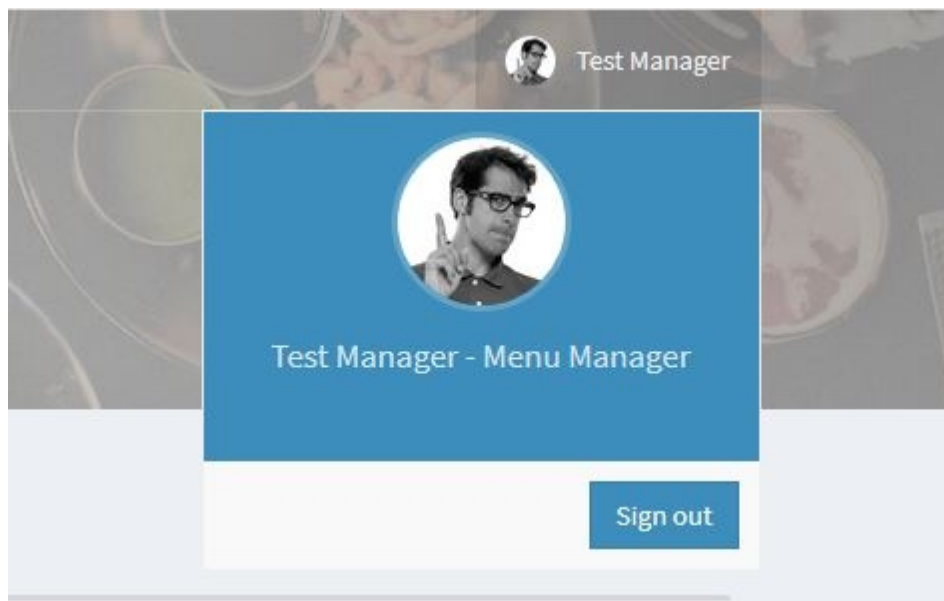

Once you have successfully, you will be displayed the home page of the menu manager with the menu for current date.

Created with the Personal Edition of HelpNDoc: [Easily create Help documents](#)

Logging Out

To logout from the system, you need to check your name on the top right corner of the page. Upon clicking, a drop down will appear from that you need to click on sign out to logout from the system.

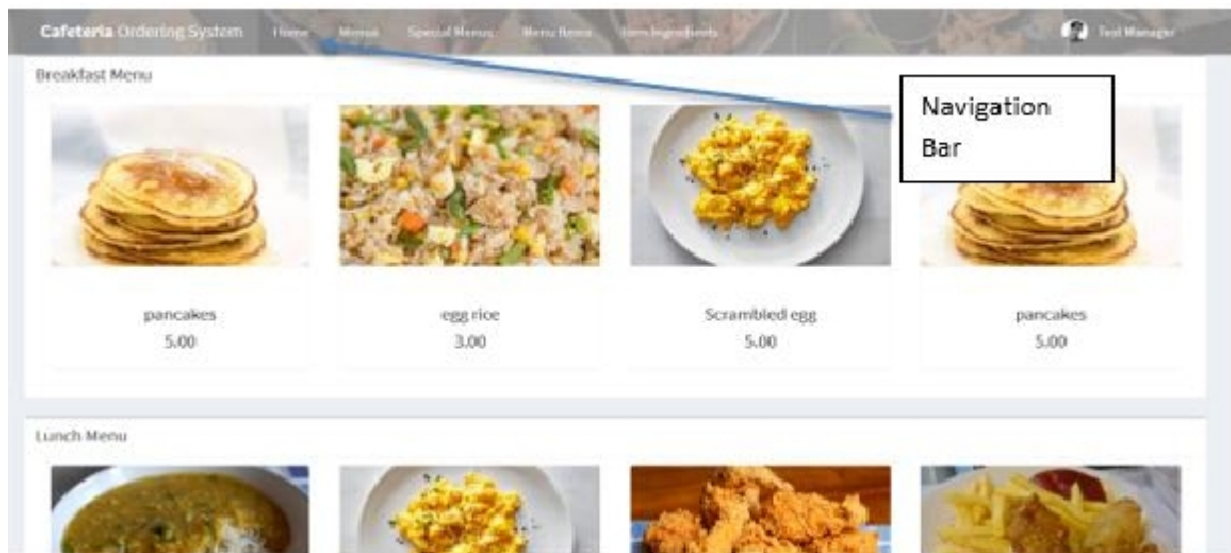

Created with the Personal Edition of HelpNDoc: [Generate Kindle eBooks with ease](#)

Manage Menus

Created with the Personal Edition of HelpNDoc: [Free EPub producer](#)

Viewing Menus

To view the menus of the restaurant, you need to click on to the Menu button in the navigation bar.

Once you click the button, you will be directed to the menu page, somewhat similar to image below.

Display and update Recipes

To view the recipes of the item of the restaurant, you need to click on to the Recipes button in the navigation bar.

Upon clicking the recipe button, something similar to below image will be displayed with all the recipes available in the restaurant

Menu Items			Update
Food Item	Recipe	Action	
Dhal Bhaat	Dal (lentils) Rinse the lentils with water, drain for 10 minutes and pat dry. Heat oil over medium heat. Fry the onions and garlic for 1 minute and add the pepper, cumin seeds, cardamom, salt and garam masala and continue to fry for 30 seconds until fragrant. Add the lentils and sauté for another minute. Cover with cold water and cook covered over medium heat until the lentils get a little mushy (about 1 hour). lentilles Dal Bhat Garnish with chopped cilantro (optional). Bhat (rice) Place the rice in water with salt, bring to boil and then turn the heat to low and cook until water is completely absorbed.		
Fried Chicken			
Scrambled egg	BEAT eggs, milk, salt and pepper in medium bowl until blended. HEAT butter in large nonstick skillet over medium heat until hot. POUR in egg mixture. As eggs begin to set, gently PULL the eggs across the pan with a spatula, forming large soft curds. CONTINUE cooking—pulling, lifting and folding eggs—until thickened and no visible liquid egg remains. Do not stir constantly. REMOVE from heat. SERVE immediately.		
pancakes	Start by combining the dry ingredients and the wet ingredients separately, then add them to the same bowl and gently fold them together. You don't want to do this too brusquely or overdo it. It can over develop the gluten in flour and end up giving you dense, tough pancakes. You'll end up with some lumps in your batter and that's ok. Let it rest while you heat your griddle or pan and they'll break up a bit. Give the batter another little stir before using it and you'll notice the biggest offending lumps will break up. From there, cook your pancakes. You'll know they are ready to be flipped when they've got bubbles coming through the top and the edges are set. I usually cook them until they are just about done, so after I flip them, they just need a little more time to finish cooking the other side so that it's golden. Finally, serve your pancakes warm with your favorite maple syrup!		
grilled chicken			
egg rice	egg rice		

To update the recipe for the item in the restaurant, you need to click the edit icon of the item row you like to update. Upon clicking a form pops up.

Modifying Ingredient

To modify the ingredients, navigate to item ingredients page. select the edit icon from the action column of the ingredient that you would like to modify.

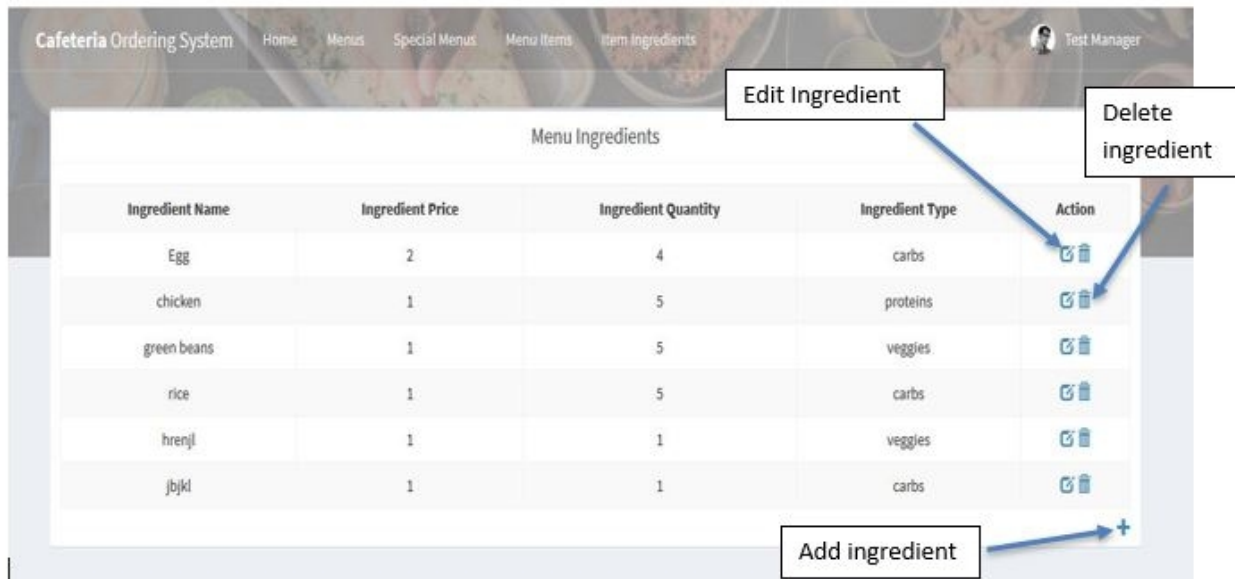

Upon clicking that icon, a modal will pop up on your screen, similar to image below. You need to fill in the details of the ingredient.

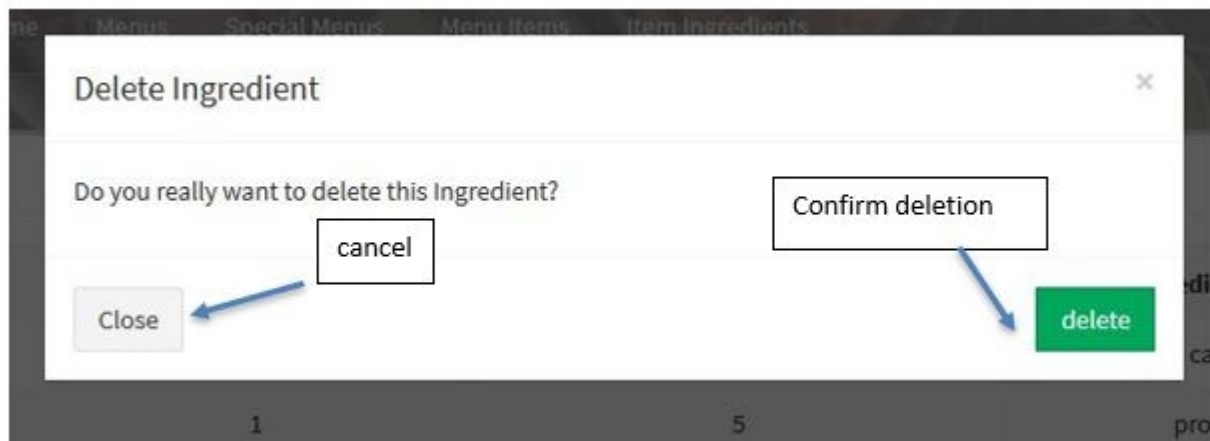

Upon clicking Update button, your entered information is will be updated. If in case of any error occurred, you will be notified with a pop up message.

Delete Ingredient

To delete the ingredient, navigate to item ingredient page. select the trash icon from the action column of the ingredient that you would like to delete.

Upon clicking that icon, a modal will pop up on your screen, similar to image below.

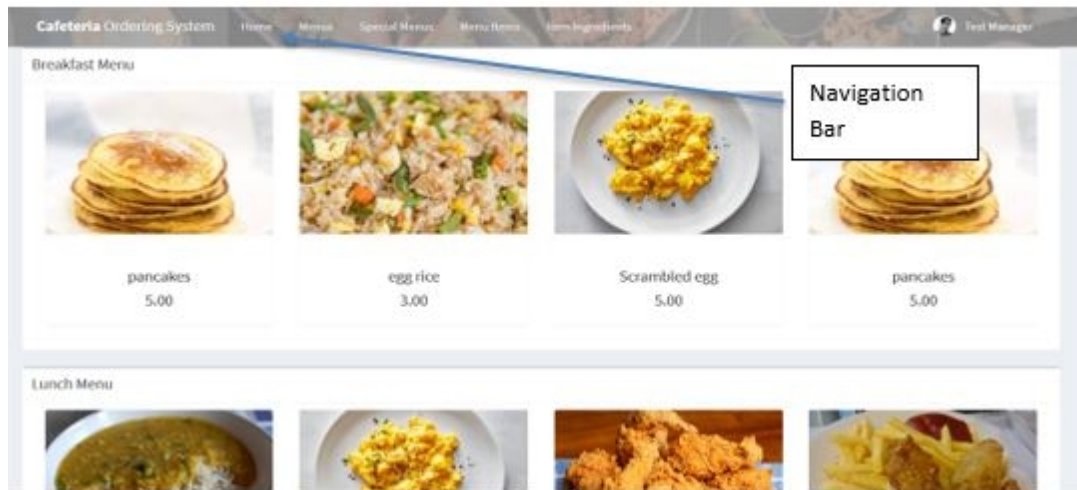

Upon clicking delete button, the ingredient will be deleted.

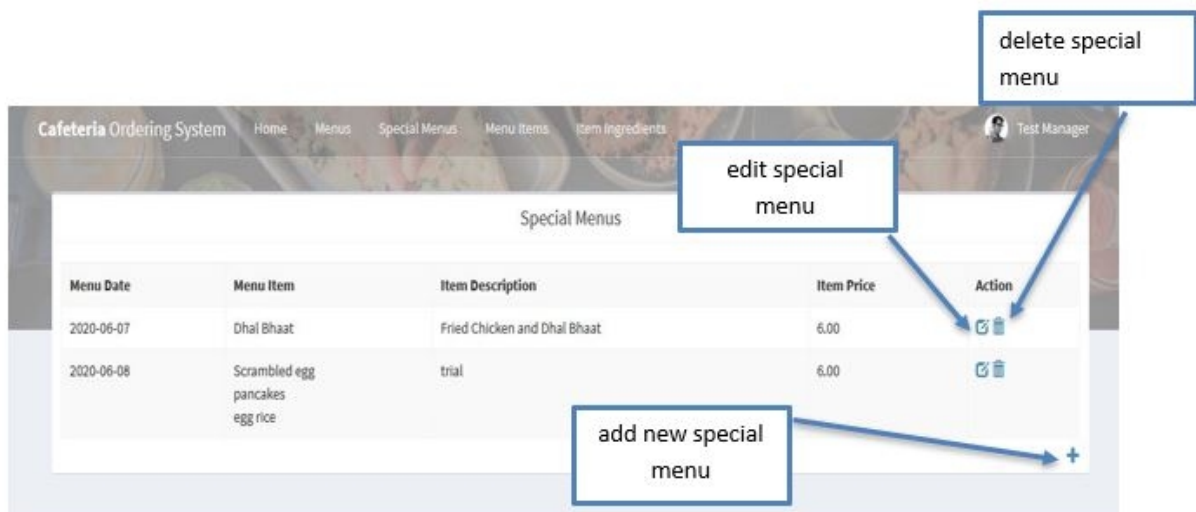

Manage Special Menu

Viewing Special Menu

To view the special menu of the restaurant, you need to click on to the special menu tab in the navigation bar.

Once you click the button, you will be directed to the special menu page with list of all the special menus of the restaurant, somewhat similar to image below.

Creating Special Menu

To create a special menu, you need to navigate to special menu tab in navigation bar. You will be displayed the special menu page with all the special menus. At the bottom of the list, there is a plus icon.

The screenshot displays the 'Special Menus' section of the 'Cafeteria Ordering System'. The interface includes a navigation bar with links to Home, Menus, Special Menus, Menu Items, and Item Ingredients. A user profile for 'Test Manager' is visible in the top right corner. The main content area features a table with the following data:

Menu Date	Menu Item	Item Description	Item Price	Action
2020-06-07	Dhal Bhaat	Fried Chicken and Dhal Bhaat	6.00	[Edit] [Delete]
2020-06-08	Scrambled egg pancakes egg rice	trial	6.00	[Edit] [Delete]

Below the table is a '+ ' button for adding new special menus. Three callout boxes with arrows point to specific elements: 'edit special menu' points to the edit icon in the first row's action column; 'delete special menu' points to the delete icon in the first row's action column; and 'add new special menu' points to the '+' button at the bottom right of the table area.

Upon clicking that icon, a modal will pop up on your screen, similar to image below. You need to fill in the details of the special menu.

The screenshot shows a 'Create New Special Menu' dialog box with the following fields and controls:

- Menu:** A text input field with a dropdown arrow on the right. An annotation box labeled 'menu' points to this field.
- Special Menu Description:** A text input field. An annotation box labeled 'Menu description' points to this field.
- Special Menu Price:** A text input field. An annotation box labeled 'Special menu price' points to this field.
- Menu Items:** A section containing a list of items with checkboxes:
 - ☐ Dhal Bhaat
 - ☐ Fried Chicken
 - ☐ Scrambled egg
 - ☐ pancakes
 - ☐ grilled chicken
 - ☐ chicken curry
 - ☐ egg rice
 An annotation box labeled 'Menu Items' points to this list.
- Buttons:**
 - Close:** A grey button at the bottom left.
 - cancel:** A white button with a black border, located above the Close button.
 - Confirm:** A white button with a black border, located above the Save button.
 - Save:** A green button at the bottom right.

Blue arrows indicate the flow from the annotation boxes to the corresponding UI elements.

Upon clicking Save button, your entered information is will be saved. If in case of any error occurred, you will be notified with a pop up message.

Modifying Special Menu

To modify the special menu, navigate to item special menu page. select the edit icon from the action column of the special menu that you would like to modify.

The screenshot displays the 'Special Menus' section of the 'Cafeteria Ordering System'. The interface includes a navigation bar with links to Home, Menus, Special Menus, Menu Items, and Item Ingredients. A user profile for 'Test Manager' is visible in the top right corner. The main content area features a table with the following data:

Menu Date	Menu Item	Item Description	Item Price	Action
2020-06-07	Dhal Bhaat	Fried Chicken and Dhal Bhaat	6.00	[Edit] [Delete]
2020-06-08	Scrambled egg pancakes egg rice	trial	6.00	[Edit] [Delete]

Annotations with arrows point to specific UI elements:

- edit special menu**: Points to the edit icon (pencil) in the Action column.
- delete special menu**: Points to the delete icon (trash) in the Action column.
- add new special menu**: Points to a plus sign (+) button at the bottom right of the table.

Upon clicking that icon, a modal will pop up on your screen, similar to image below. You need to fill in the details of the special menu.

The screenshot shows the 'Edit Special Menu' dialog box with the following fields and controls:

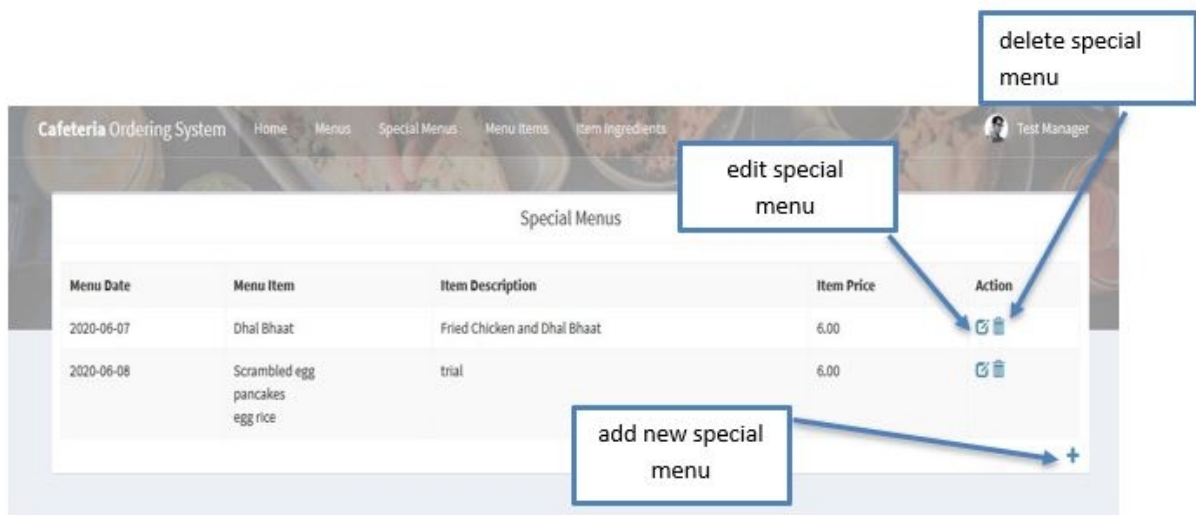

- Menu:** A dropdown menu showing '2020-06-07 - Dhal Bhaat - Scrambled egg - Lunch'. An annotation box labeled 'menu' points to this field.
- Special Menu Description:** A text field containing 'Fried Chicken and Dhal Bhaat'. An annotation box labeled 'Menu description' points to this field.
- Special Menu Price:** A text field containing '6.00'. An annotation box labeled 'Special menu price' points to this field.
- Menu Items:** A list of items with checkboxes:
 - ☒ Dhal Bhaat
 - ☐ Fried Chicken
 - ☐ Scrambled egg
 - ☐ pancakes
 - ☐ grilled chicken
 - ☐ chicken curry
 - ☐ egg rice
 An annotation box labeled 'Menu Items' points to this list.
- Buttons:**
 - Close:** A button at the bottom left.
 - Cancel update:** A button at the bottom center.
 - Confirm update:** A button at the bottom right with a document icon.
 - Update:** A green button at the bottom right.

Blue arrows point from the annotation boxes to their respective fields in the dialog.

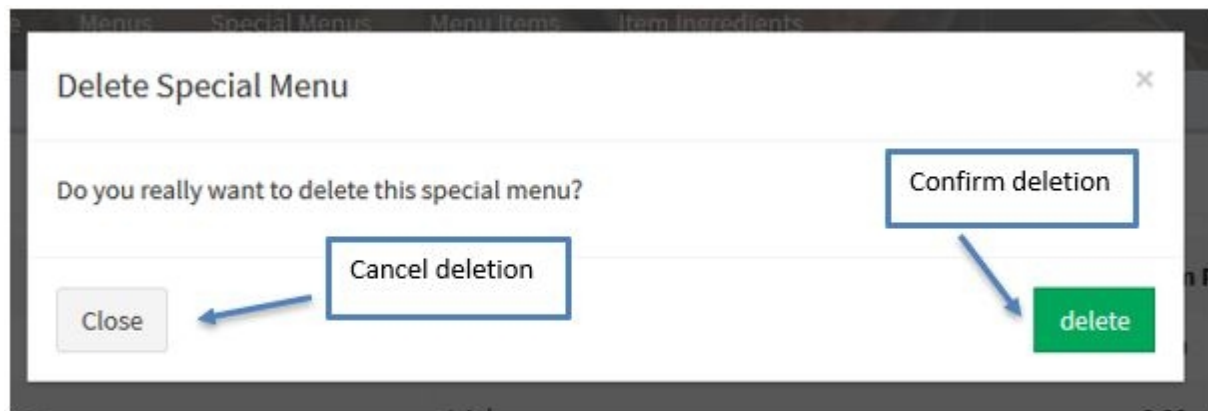

Upon clicking Update button, your entered information is will be updated. If in case of any error occurred, you will be notified with a pop up message.

Deleting Special Menu

To delete the special menu, navigate to special menu page. select the trash icon from the action column of the special menu that you would like to delete.

Upon clicking that icon, a modal will pop up on your screen, similar to image below.

Upon clicking delete button, the special menu will be deleted.
